

THE EASY COMPLETE GUIDE

Every tool in the Rankkw dashboard, explained in simple words, with clear numbered steps and a real screenshot for each one — written so a complete beginner can follow along with no confusion.

Each tool below has three parts: **What it does** (one simple sentence), **How to use it** (numbered steps in plain language), and **What you get** (what the result means for you) — followed immediately by the real screenshot of that screen.

1. Overview

WHAT IT DOES

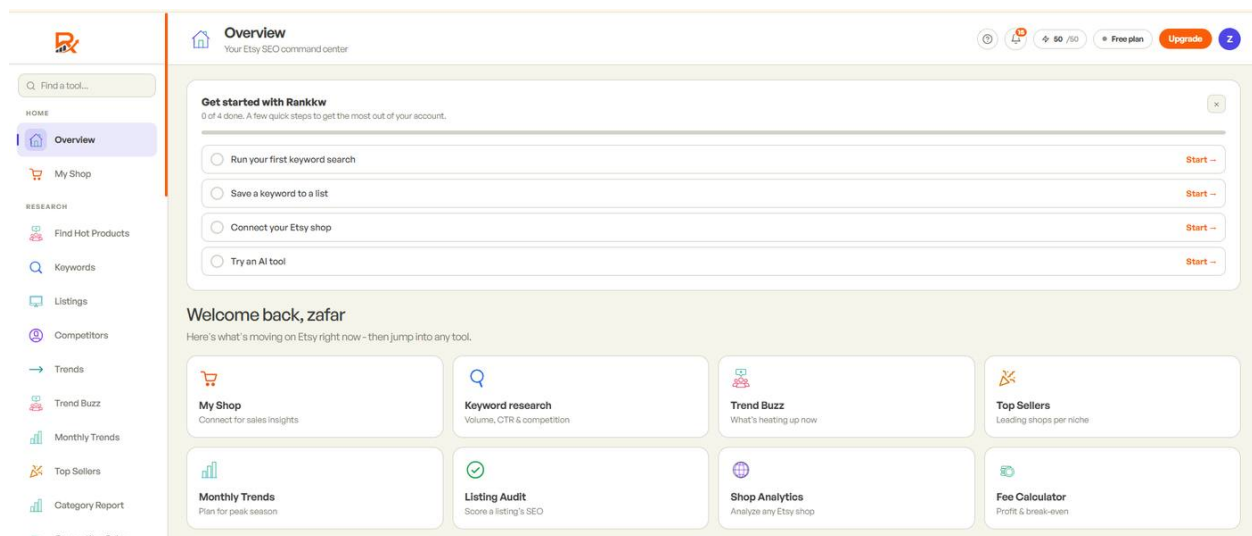

This is your home page — the first screen you see when you open Rankkw.

HOW TO USE IT

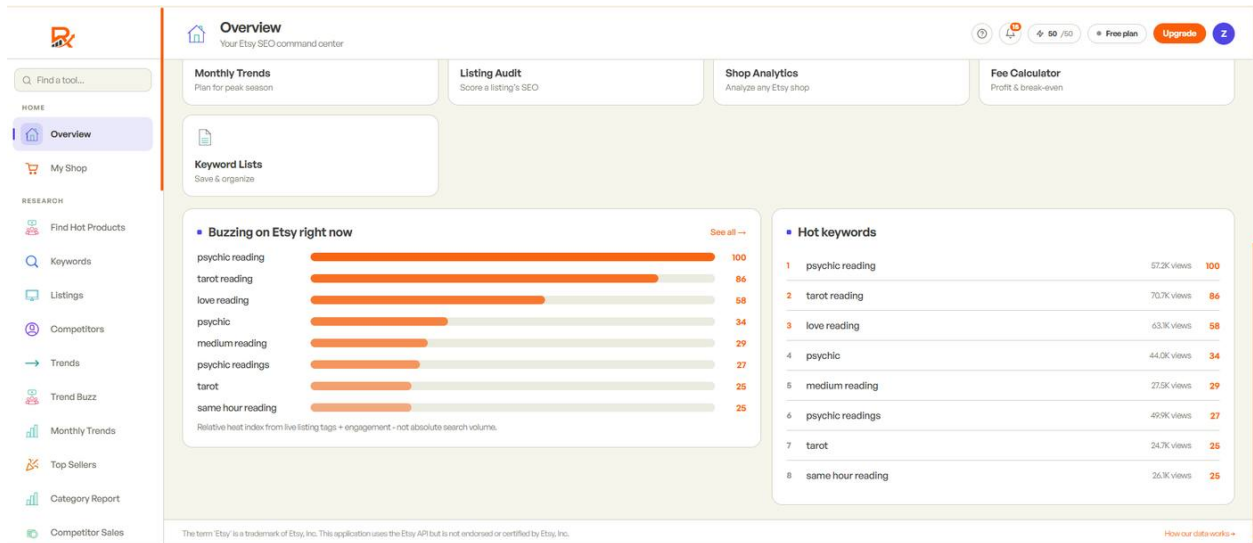

- 1 Look at the checklist at the top. It shows 4 quick things to do to set up your account (search a keyword, save a keyword, connect your shop, try an AI tool).
- 2 Click "Start" next to any checklist item to jump straight to that tool.
- 3 Scroll down to the shortcut cards (My Shop, Keyword research, Trend Buzz, etc.) — click any card to open that tool instantly.
- 4 Look at the "Buzzing on Etsy right now" chart on the left and the "Hot keywords" list on the right to see what's popular today.

WHAT YOU GET

A quick snapshot of your account setup, plus a fast way to jump into any tool without hunting through the sidebar.

2. My Shop

WHAT IT DOES

This page connects your own Etsy shop to Rankkw so it can show your real sales data.

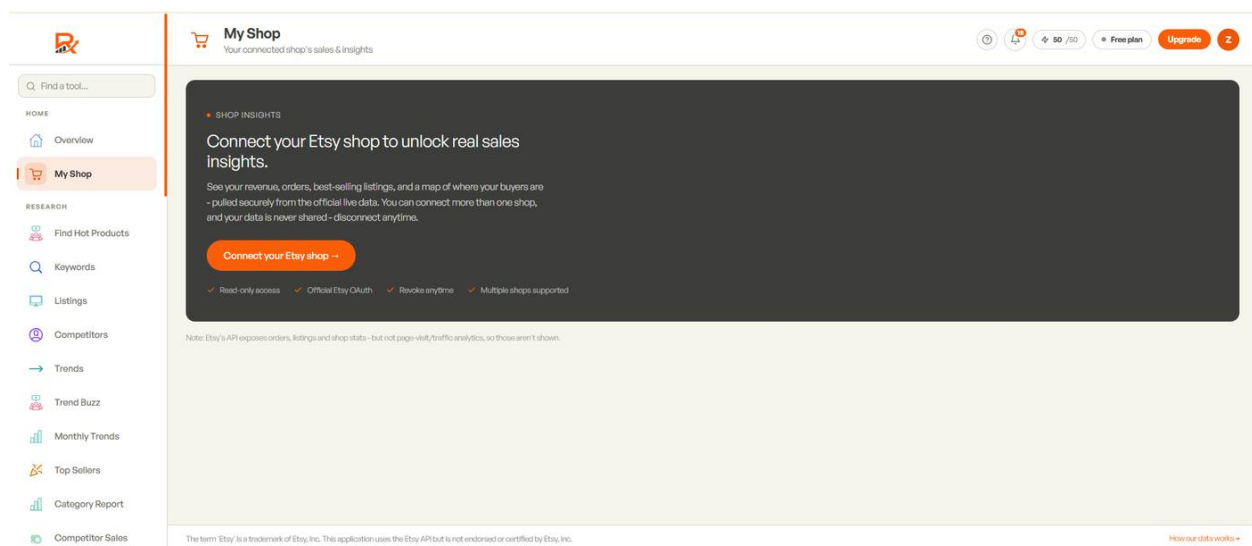

HOW TO USE IT

- 1 Click the orange "Connect your Etsy shop" button.
- 2 Log in with your Etsy account when Etsy asks you to (this is the official, secure Etsy login — Rankkw never sees your password).
- 3 Approve read-only access — this means Rankkw can only look at your data, never change or post anything.
- 4 Once connected, come back here anytime to see your revenue, orders, best-selling listings, and buyer map.

WHAT YOU GET

Real numbers about YOUR shop — not estimates. This also unlocks the Sales Map and Delivery Status tools.

Tip: You can connect more than one shop, and you can disconnect at any time — nothing is permanent.

3. Find Hot Products

WHAT IT DOES

This tool finds products that are trending on Etsy right now, for any word you type in.

HOW TO USE IT

- 1 Type a product word into the search box (example: "sticker") and click Search.
- 2 Optional: use the Filters row to narrow results by category, price range, or minimum favorites.
- 3 Optional: click 30 Days, 180 Days, 1 Year, or All Time to only see products released in that window.
- 4 Look at the results table — the "Hot Score" column on the far right ranks products from most to least trending.
- 5 Click "View" next to any product to see its full breakdown, or click "Export CSV" to save the whole list.

WHAT YOU GET

A ranked list of real, live products that are gaining favorites fast for their age — a strong signal of what's selling well right now.

Tip: Don't just look at the top row — check the "Favs/day" column too. A newer product with a high Favs/day can be a stronger trend signal than an old product with more total favorites.

The screenshot displays the 'Find Hot Products' tool interface. On the left is a sidebar with navigation links: HOME (Overview, My Shop), RESEARCH (Find Hot Products, Keywords, Listings, Competitors, Trends, Trend Buzz, Monthly Trends, Top Sellers, Category Report, Competitor Sales), and a search bar. The main panel is titled 'Find Hot Products' with the subtitle 'Discover trending products by real engagement'. It features a search bar with 'sticker' entered and a 'Search' button. Below the search bar are filters for 'All categories', 'Min \$', 'Max \$', 'Min favorites', and an 'Apply' button. A 'RELEASED' section shows tabs for '30 Days', '180 Days', '1 Year', and 'All Time'. The results section shows '4.3M live products for "sticker" - scoring the top 100'. A table lists the top products with columns: PRODUCT, SHOP, AGE, VIEWS, FAVORITES, ~ SALES/MO, FAVS/DAY, and HOT SCORE. The first three products are: 'Funny Christian Sticker, Strawberry...' by CottonCharmco (4mo, 1.2K views, 315 favorites, ~8 sales/mo, 2.43 favs/day, Hot Score 59), 'spiderman: across the spiderverse...' by StudioKycsis (3.2y, 6.3K views, 1.1K favorites, ~42 sales/mo, 0.93 favs/day, Hot Score 60), and 'FFVII Stickers 3" [Cloud, Zack, Se...' by Lukabooga (2.0y, 4.8K views, 605 favorites, ~17 sales/mo, 0.82 favs/day, Hot Score 49). Each row has a 'View' link. The interface also includes a 'Sort: Hot Score' dropdown, a 'Filter' icon, and an 'Export CSV' button.

4. Keywords

WHAT IT DOES

This is the most important tool — it tells you how many people search a word and how hard it is to rank for.

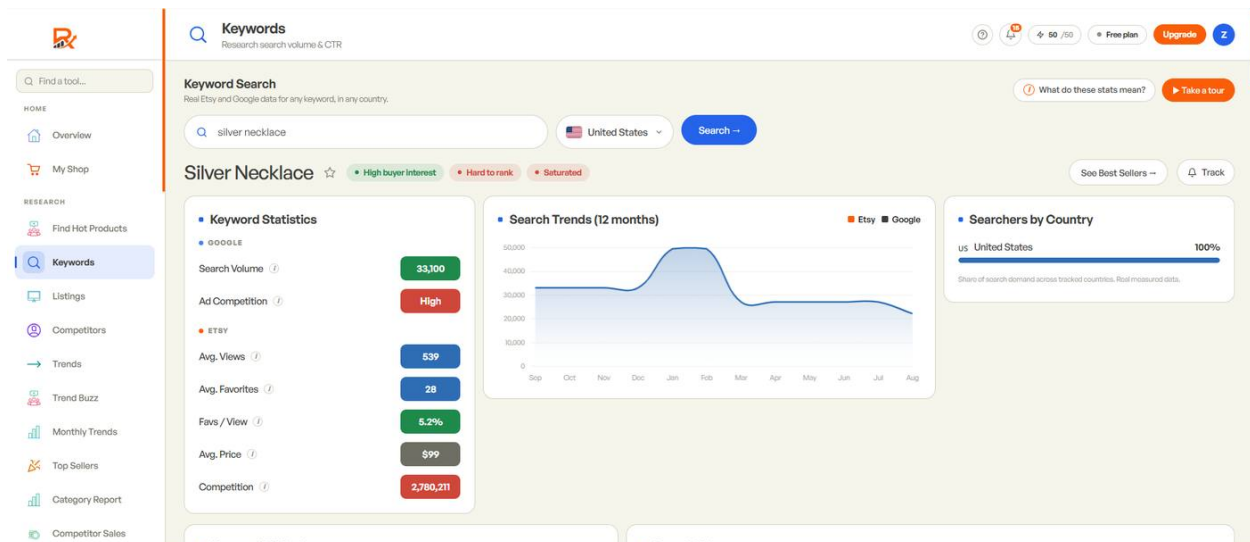

HOW TO USE IT

- 1 Type your keyword into the search box (example: "resume").
- 2 Choose a country from the dropdown, or leave it on "Global" for worldwide numbers.
- 3 Click Search and wait for the page to load.
- 4 Read the Keyword Statistics box at the top — it shows Google search volume and Etsy competition side by side.
- 5 Check the "Keyword Difficulty (KD)" number — lower is easier to rank for.
- 6 Scroll to "Best Keyword Opportunities" and look for long green bars — these are easier keywords worth trying.
- 7 Click the tabs above the table (Keyword Ideas, Near Matches, Search Results Analysis, Top Listings) to see more angles on the same keyword.

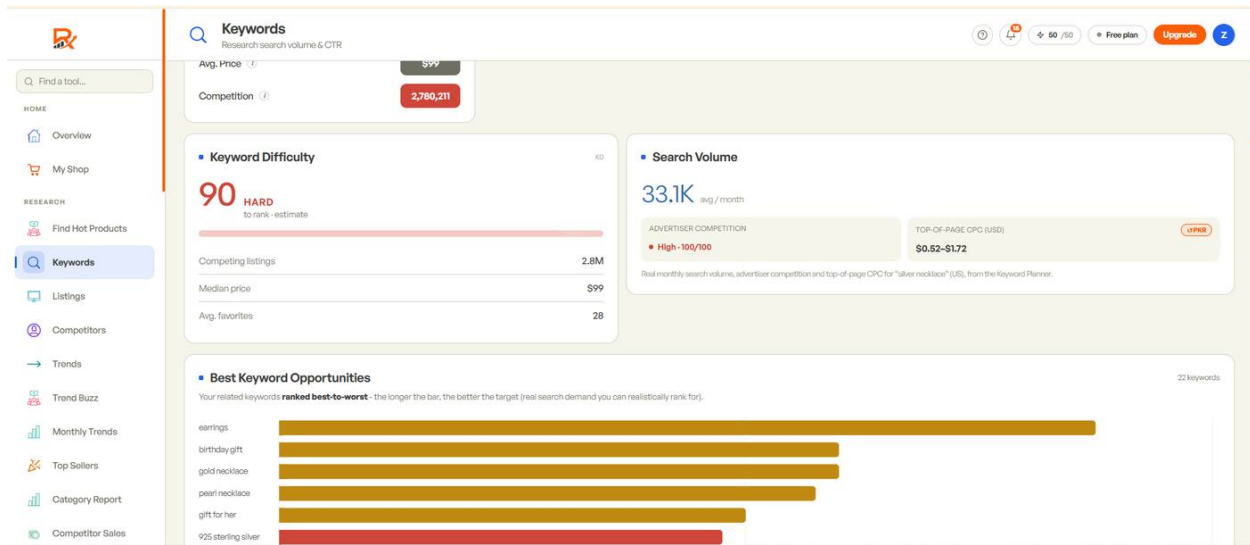

WHAT YOU GET

Everything you need to decide: is this word worth using in my title and tags, or should I pick an easier related word instead?

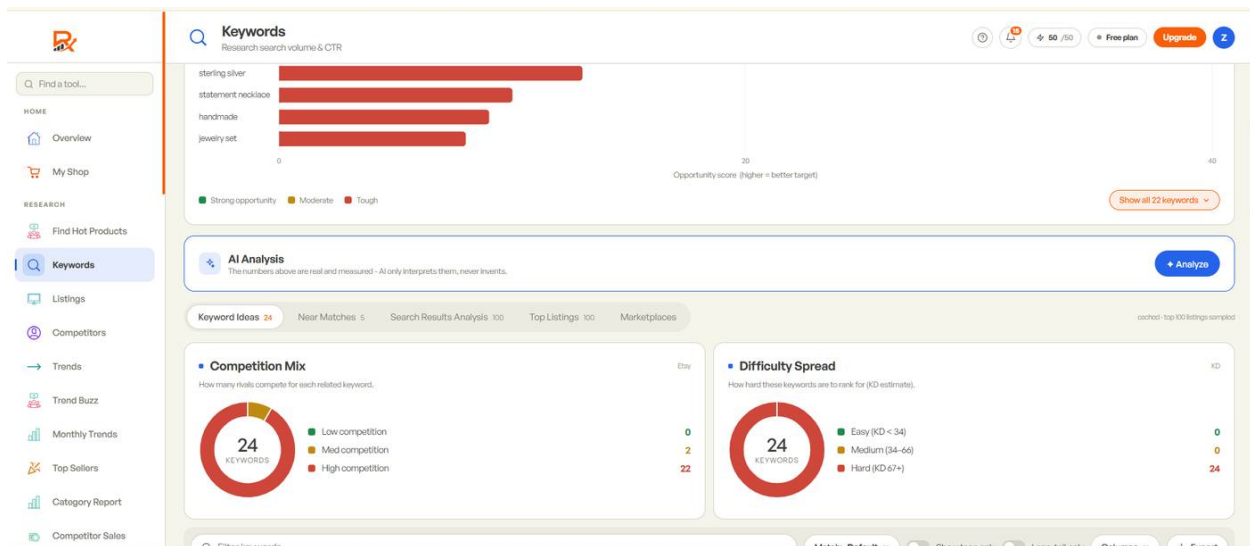

Tip: A KD under 34 is Easy, 34-66 is Medium, and 67+ is Hard. Aim for Easy or Medium keywords when you're just starting out.

5. Listing

WHAT IT DOES

This tool lets you look at individual real listings for any search word, one by one.

HOW TO USE IT

- 1 Type a search word into the box and click Search.
- 2 Optional: use the filters to set a price range or category.
- 3 Scroll through the table — each row is one real, live Etsy listing.
- 4 Compare the Views, Favorites, Reviews, and Price columns to see which listings are doing best.
- 5 Click any row to see that listing's full details.

WHAT YOU GET

A side-by-side view of real competing listings, so you can see exactly what's working (and what isn't) for that search word.

Tip: Most listings have very low views, even if they've been live for months — don't assume every competitor is successful just because they exist.

The screenshot displays the 'Listings' tool interface. On the left is a sidebar with navigation options: HOME (Overview, My Shop), RESEARCH (Find Hot Products, Keywords, Listings, Competitors, Trends, Trend Buzz, Monthly Trends, Top Sellers, Category Report, Competitor Sales), and a search bar. The main area is titled 'Listings' and shows search results for 'handmade jewelry'. It includes filters for categories, price range (Min \$, Max \$), and sort order (Relevance). Summary statistics are shown: MEDIAN PRICE (USD 19), AVG VIEWS (263), UNIQUE SHOPS (24), and TOTAL RESULTS (4.6M). Below these is a table of listings with columns: #, LISTING, AGE (DAYS), VIEWS, VIEWS / DAY, FAVS / VIEW, HEARTS, and REVIEWS. The table shows three listings: 1. Boucles d'oreilles Asmara, 2. Honey Dendritic Opal Cabochon Loose Ge..., and 3. Tiger's eye earring vintage earring stylish b....

Real columns are exact live fields or a ratio of two (Views/Etsy = views + apps; Fans/Follow = fans + follows; Reviews is the real review count - a verified seller only). The = Sales / Revenue / Total columns are estimates - modified from the strongest real signal (views, views + conversion, or favorites), since Etsy publishes no per-listing sales. Directional, not exact. Click a row for the full breakdown.

6. Competitors

WHAT IT DOES

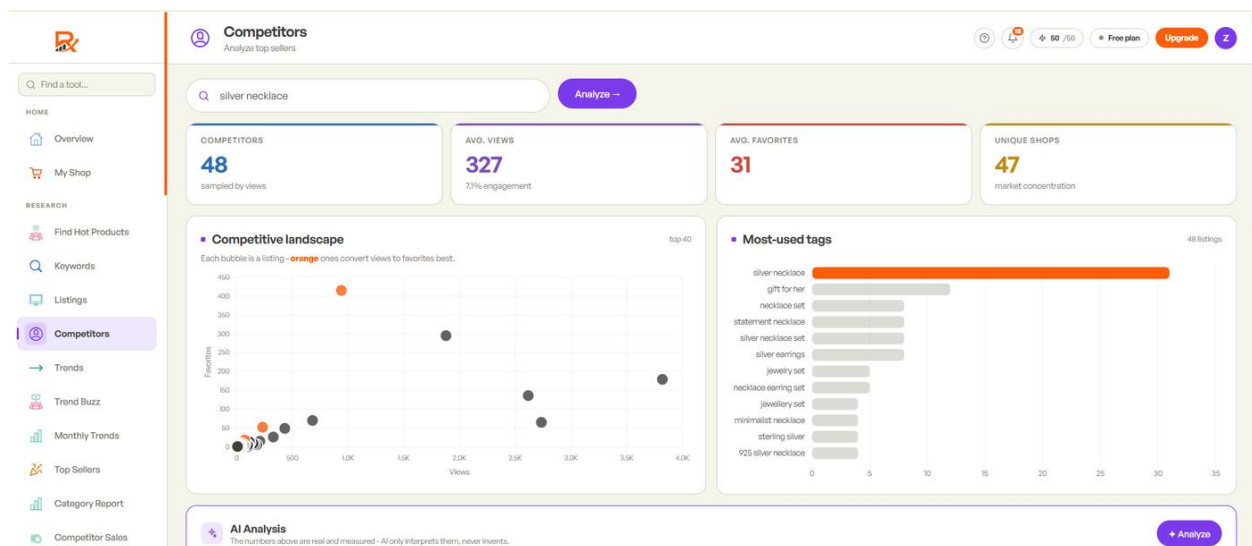

This tool shows you who you're really up against for a keyword, with an easy-to-read chart.

HOW TO USE IT

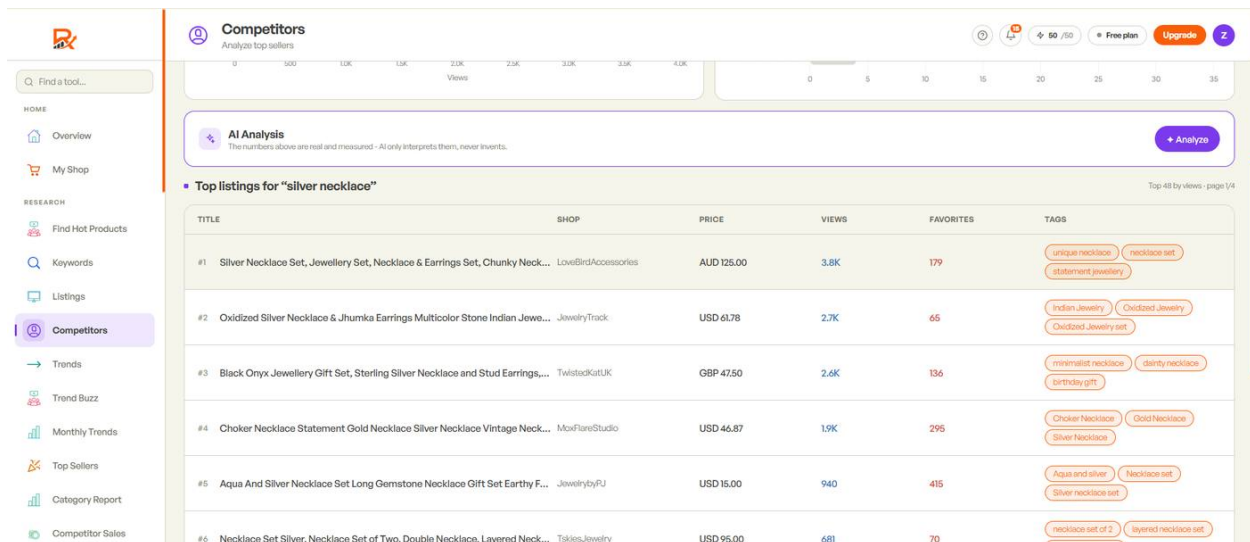

- 1 Type your keyword into the search box and click Analyze.
- 2 Look at the bubble chart — each bubble is one listing. Bubbles toward the top-left are doing the best (most favorites per view).
- 3 Check the "Most-used tags" bar chart on the right to see which tags competitors rely on most.
- 4 Scroll down to the full list of top listings for more detail on each one.

WHAT YOU GET

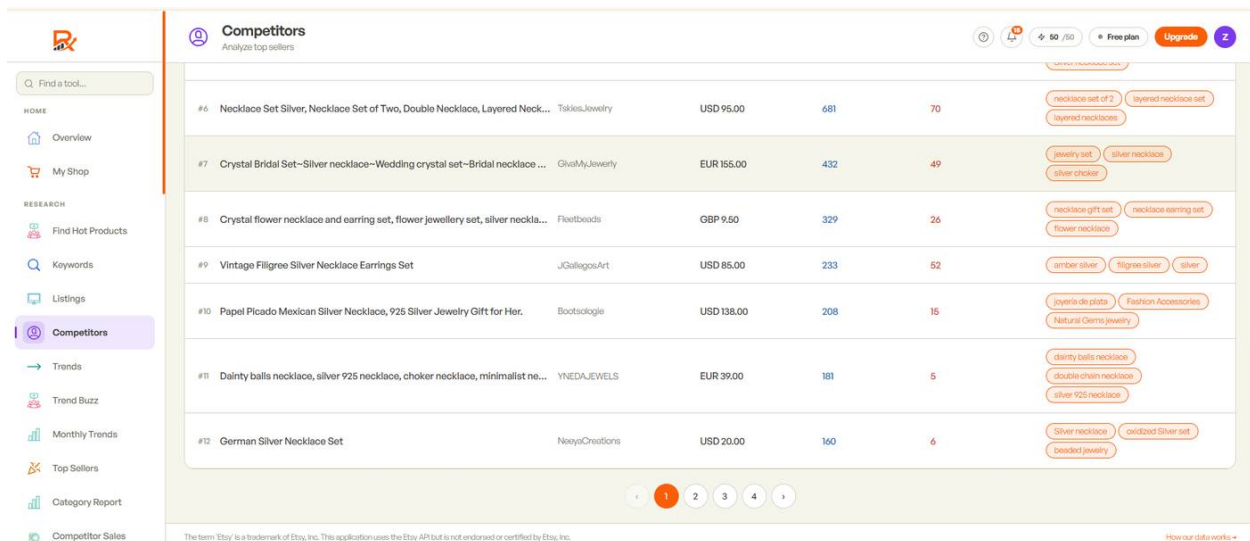

A visual map of your competition, so you can spot the strongest performers at a glance instead of reading a long table.

Screenshot 1 of 3 — Competitors

Screenshot 2 of 3 — Competitors

Screenshot 3 of 3 — Competitors

7. Trends

WHAT IT DOES

This tool shows how demand for a keyword changes across the year.

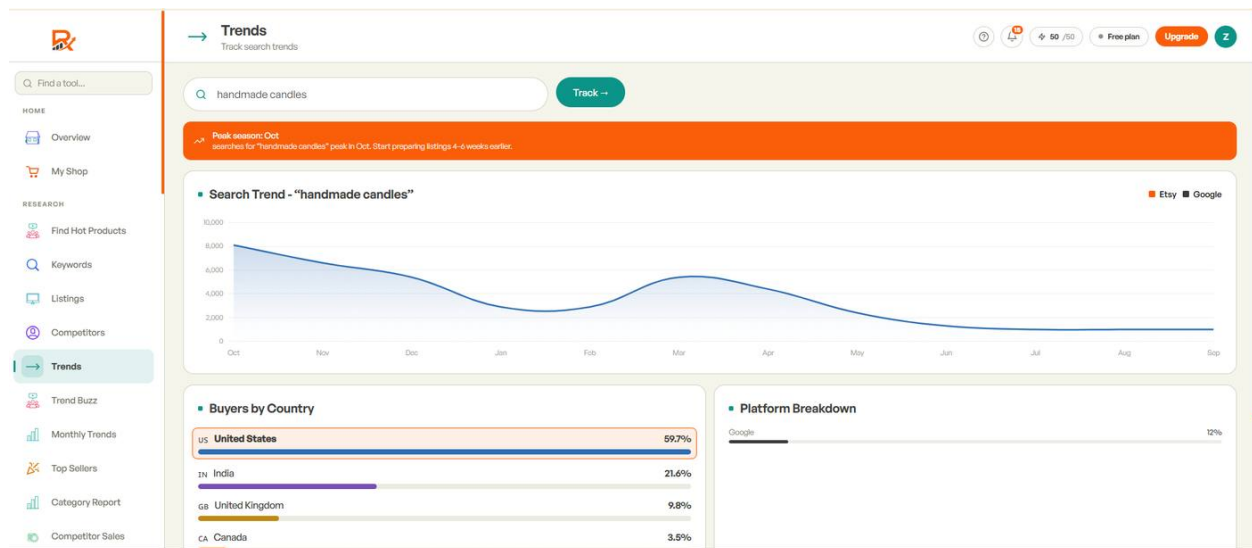

HOW TO USE IT

- 1 Type your keyword into the search box and click Track.
- 2 Look at the orange banner at the top — it tells you the peak selling month for this keyword.
- 3 Study the trend line chart to see how search interest rises and falls over 12 months.
- 4 Check "Buyers by Country" to see which countries search for this the most.
- 5 Check "Platform Breakdown" to see how much of the traffic comes from Google vs. Etsy itself.

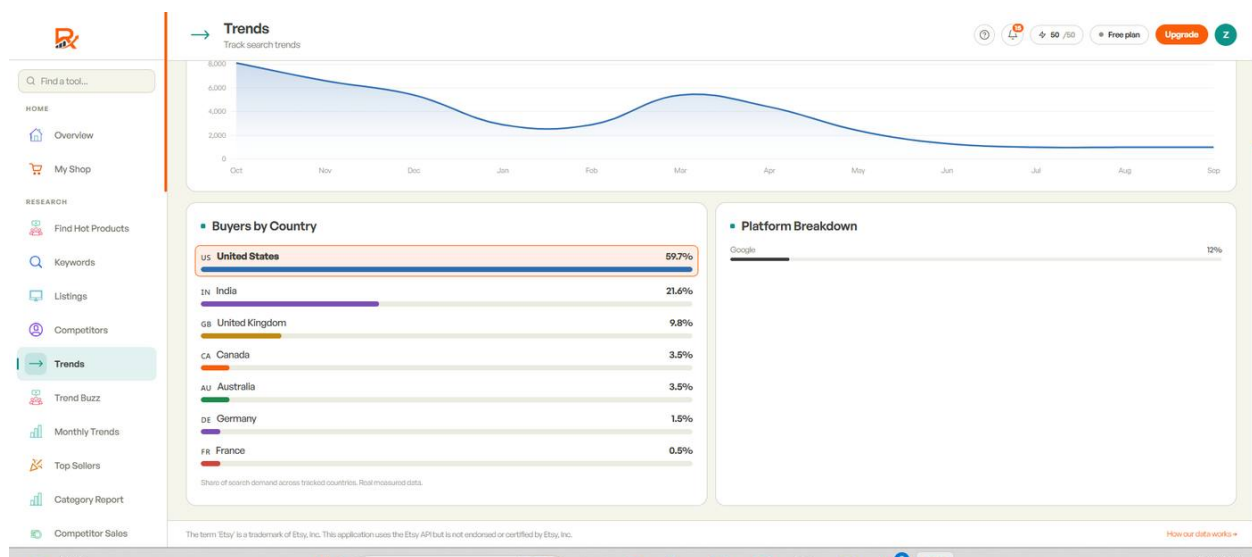

WHAT YOU GET

A clear picture of WHEN to list and promote this product, and WHO your buyers actually are.

Tip: The tool tells you to start listing 4-6 weeks before the peak month, so your listing has time to get reviews and rank before demand hits.

Screenshot 1 of 2 — Trends

8. Trend Buzz

WHAT IT DOES

This tool finds keywords that are heating up RIGHT NOW, before everyone else notices them.

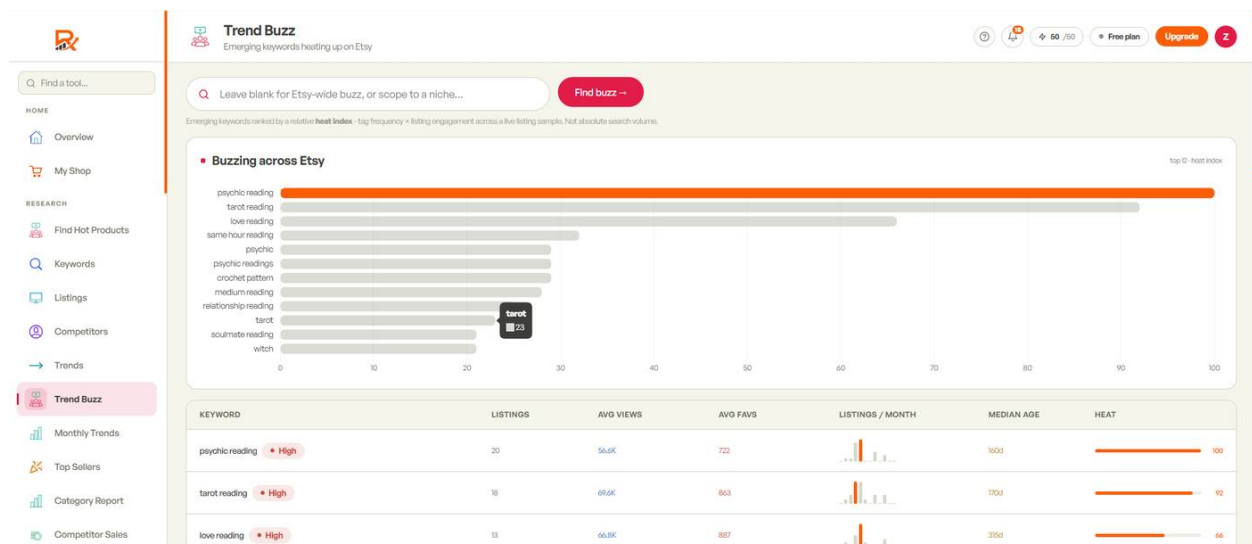

HOW TO USE IT

- 1 Leave the search box blank to see what's buzzing across all of Etsy, or type a niche word to narrow it down.
- 2 Click "Find buzz".
- 3 Look at the ranked list — keywords at the top have the highest "Heat" score.
- 4 Check the "Median Age" column — a LOW number (like 19 days) means this is a brand-new trend, not an old tag.

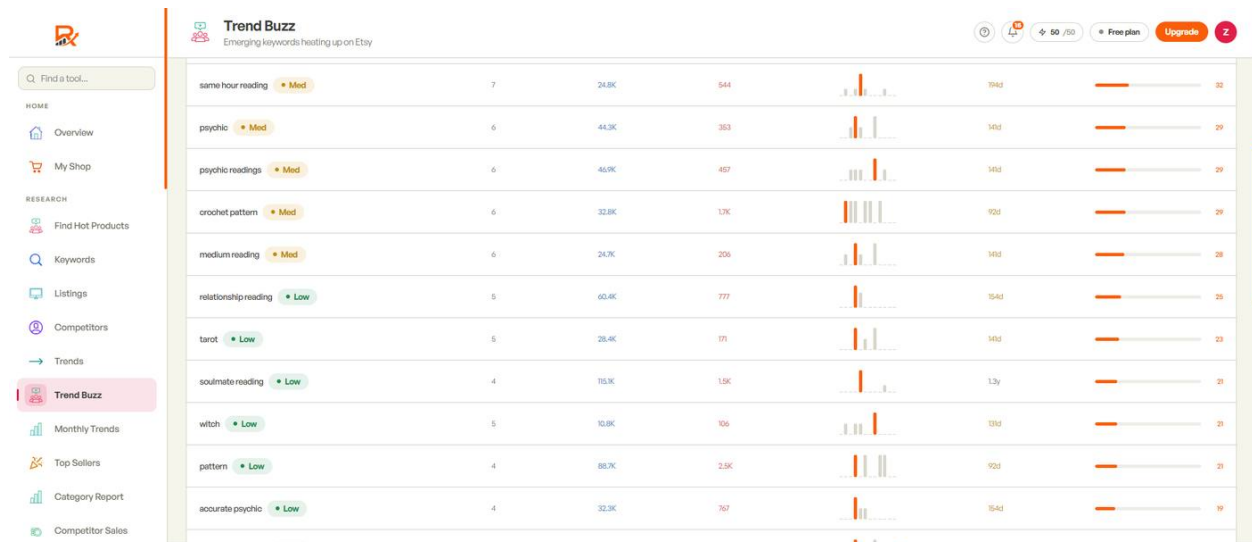

WHAT YOU GET

A short list of rising keywords you can jump on early, before the competition catches up.

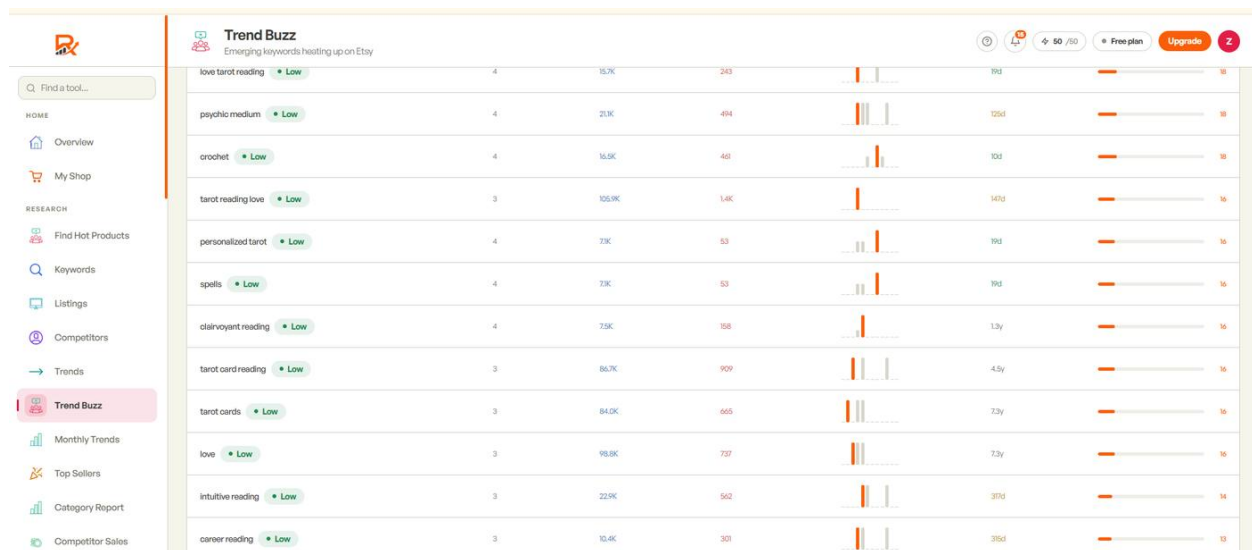

Tip: Always check Median Age before trusting a high Heat score — an old, established tag can still show up as "hot" even though it's not actually a new trend.

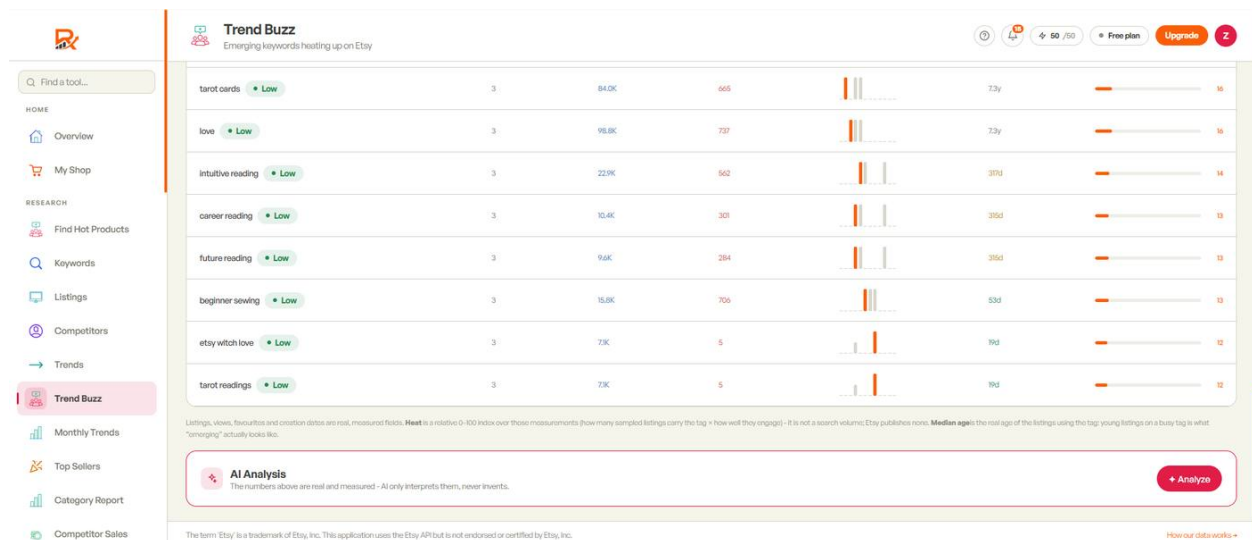

Screenshot 1 of 4 — Trend Buzz

Screenshot 2 of 4 — Trend Buzz

Screenshot 3 of 4 — Trend Buzz

Screenshot 4 of 4 — Trend Buzz

9. Monthly Trends

WHAT IT DOES

This tool shows you the full seasonal picture for one keyword, month by month.

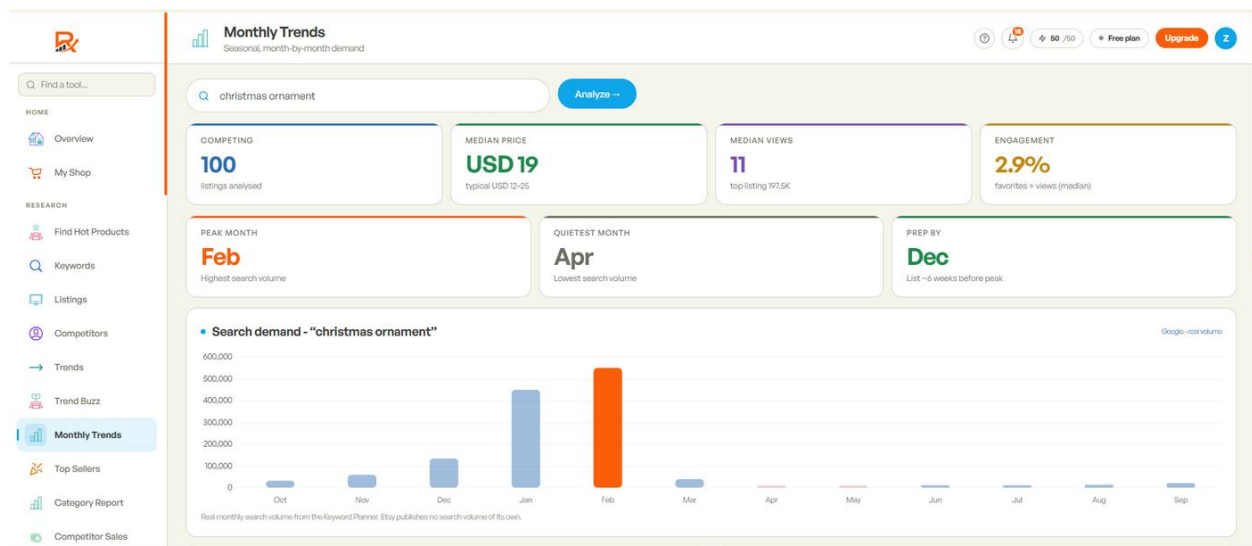

HOW TO USE IT

- 1 Type your keyword into the search box and click Analyze.
- 2 Check the top row of boxes: Competing listings, Median price, Median views, and Engagement.
- 3 Look at "Peak month" and "Quietest month" to know when demand is highest and lowest.
- 4 Compare the "Search demand" chart (real buyer interest) against the "When sellers list" chart (when other sellers publish) — these are often different months.
- 5 Scroll to "Price distribution" to see what price range most listings use, and "Top listings by views" to study the winners.

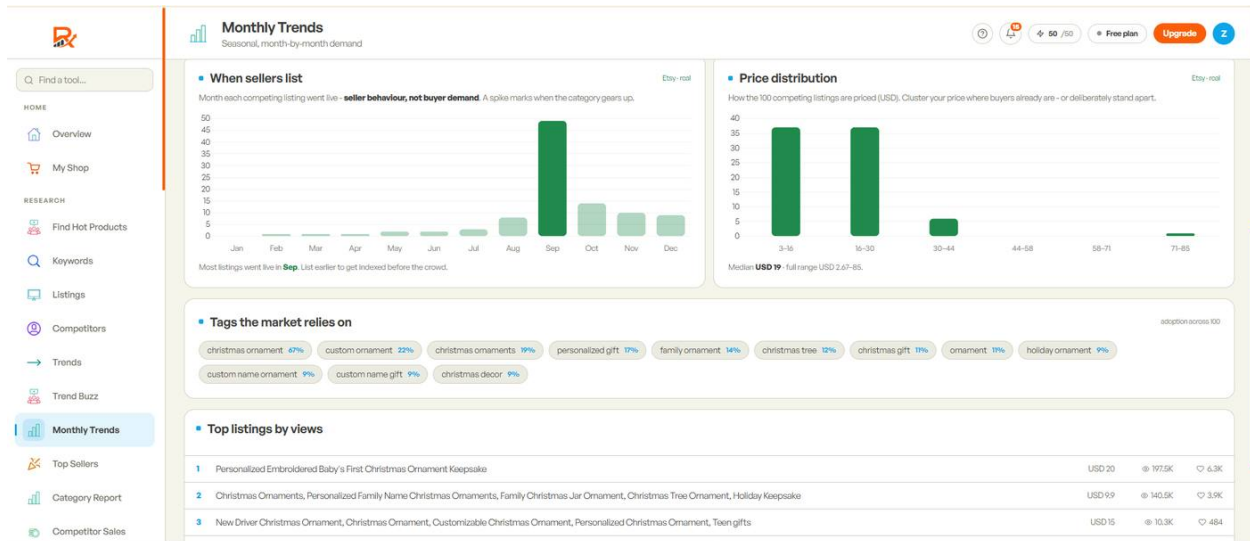

WHAT YOU GET

A full seasonal plan: what to price it at, when buyers actually search for it, and when to publish your own listing.

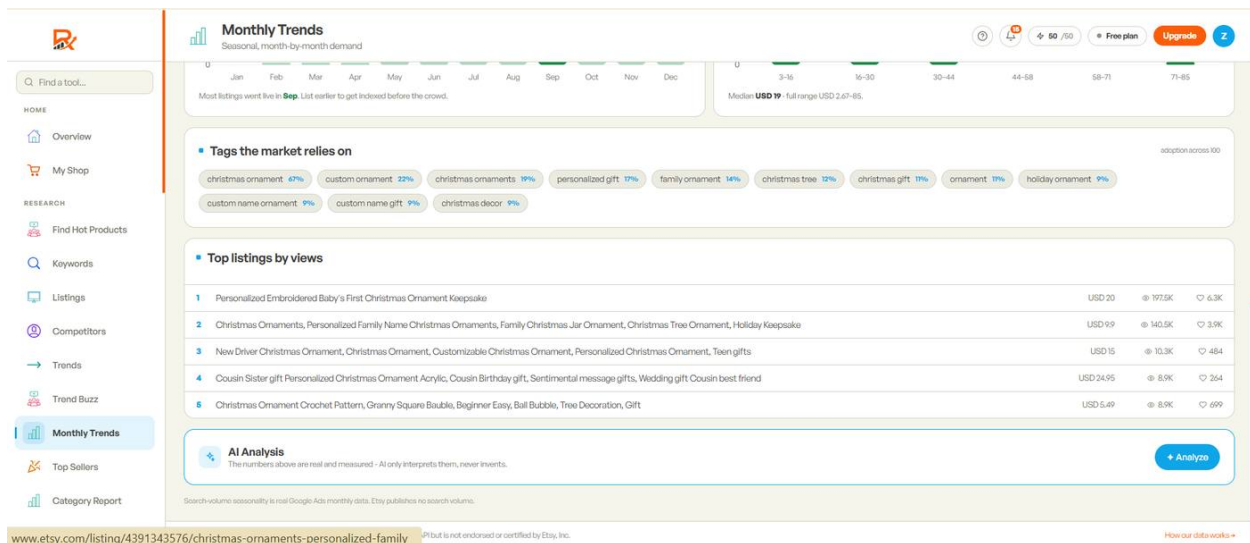

Tip: If most sellers list in September but real search demand peaks in February, that's a hint you don't have to rush — or that staying active into the new year still pays off.

10. Top Sellers

WHAT IT DOES

This tool ranks the shops that are winning in any niche.

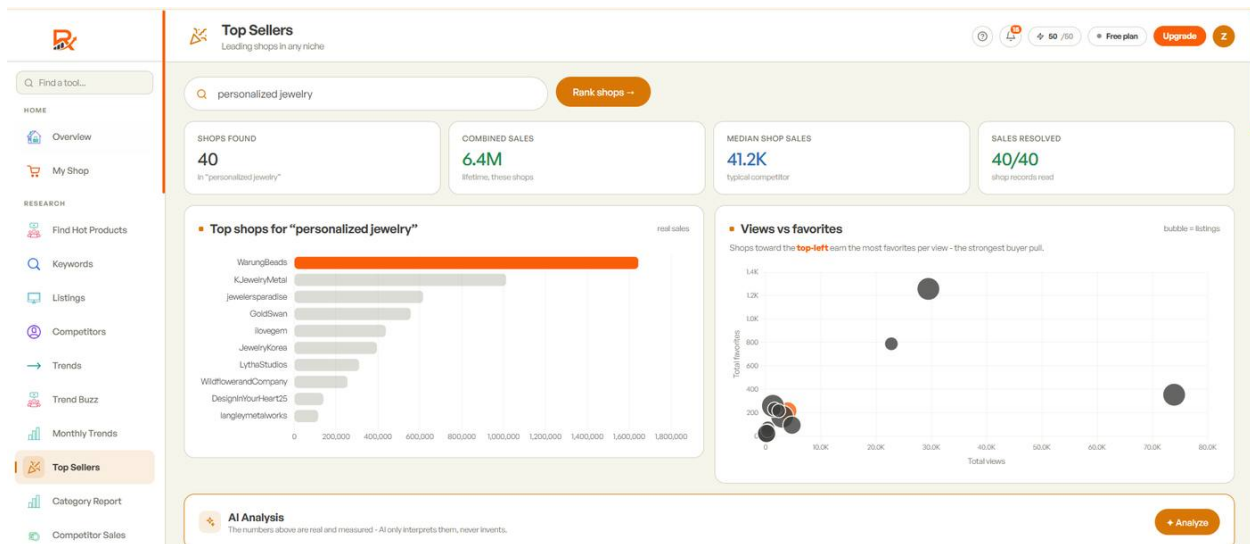

HOW TO USE IT

- 1 Type a niche word (example: "resume") and click Rank shops.
- 2 Look at the top boxes: Shops found, Combined sales, and Median shop sales.
- 3 Scroll the ranked bar chart to see the top shops by real sales.
- 4 Check the "Views vs favorites" bubble chart — shops in the top-left corner have the strongest buyer pull.
- 5 Scroll to the full table and look at the "In This Niche" column to filter out big generalist shops that don't really specialize in your niche.

WHAT YOU GET

A list of real shops already succeeding in this space, so you can study what they do differently.

Tip: Etsy only shows a shop's TOTAL lifetime sales, not sales for one product — always check "In This Niche" before assuming a shop is a true specialist.

Screenshot 1 of 5 — Top Sellers

11. Category Report

WHAT IT DOES

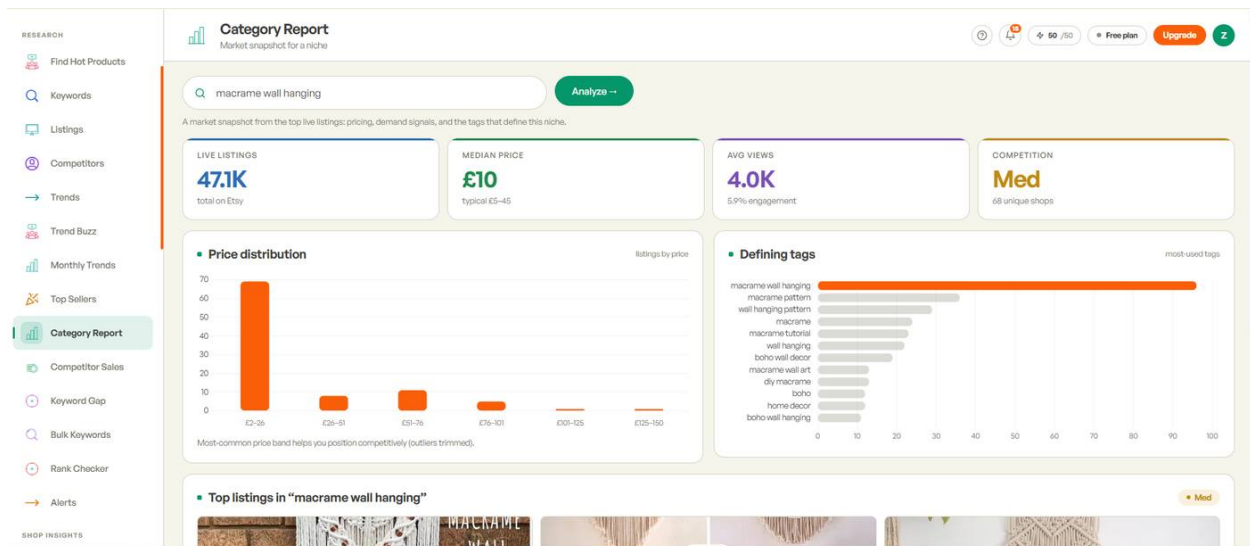

This tool gives you a full snapshot of an entire niche, not just one keyword.

HOW TO USE IT

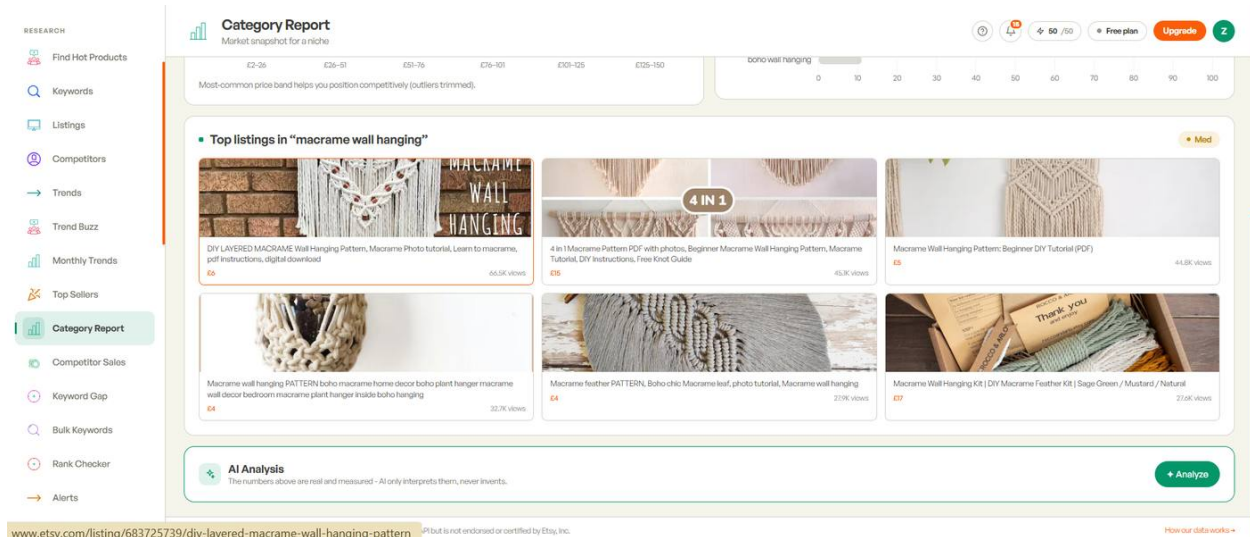

- 1 Type your niche (example: "macrame wall hanging") and click Analyze.
- 2 Check the top boxes: Live listings, Median price, Avg views, and Competition level.
- 3 Look at the "Price distribution" chart to see where most listings are priced.
- 4 Check "Defining tags" to see the words that show up again and again in this niche.
- 5 Scroll down to see photos and stats of the top listings in this niche.

WHAT YOU GET

A complete picture of a niche's size, pricing, and top tags — useful before you decide to enter it.

12. Competitor Sales

WHAT IT DOES

Etsy only shows a shop's total lifetime sales — this tool turns that single number into a daily trend.

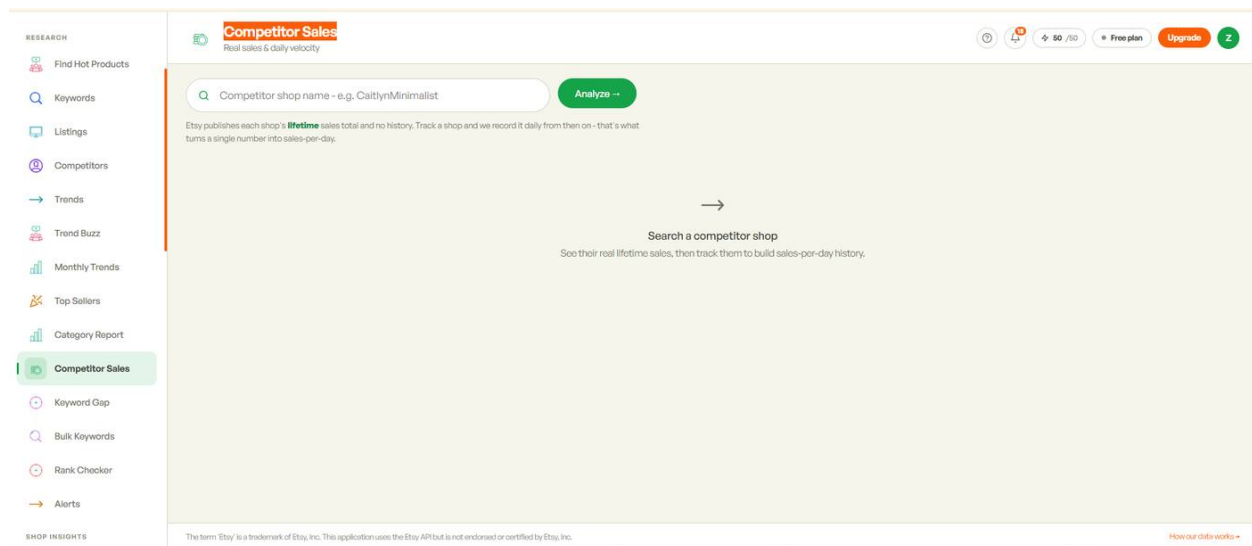

HOW TO USE IT

- 1 Type a competitor's shop name into the search box (example: "CaitlynMinimalist").
- 2 Click Analyze to see their real lifetime sales total right now.
- 3 Click "Track" to start following this shop.
- 4 Come back regularly — over time, the tool builds a real sales-per-day history for that shop from your tracked check-ins.

WHAT YOU GET

A way to watch a competitor's growth over time, even though Etsy itself never shows that history.

Tip: The more often you check back, the more accurate the sales-per-day trend becomes — this tool gets more useful the longer you track a shop.

13. Keyword Gap

WHAT IT DOES

This tool shows you the exact tags the top listings for a keyword actually use — including tags you might be missing.

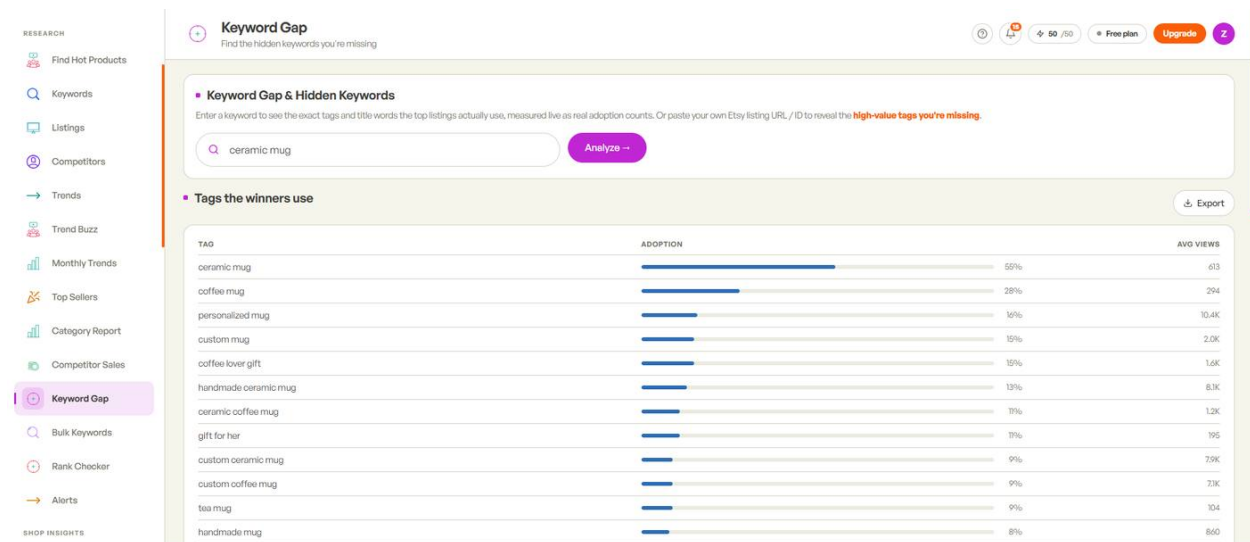

HOW TO USE IT

- 1 Type a keyword into the search box (example: "ceramic mug") and click Analyze.
- 2 Look at the "Tags the winners use" table — the Adoption % shows how many top listings use each tag.
- 3 Pay special attention to tags with LOW adoption but HIGH avg views — these are hidden opportunities.
- 4 Optional: paste your own listing URL to see exactly which of these tags you're currently missing.
- 5 Scroll down to "Words in the winning titles" for more ideas.

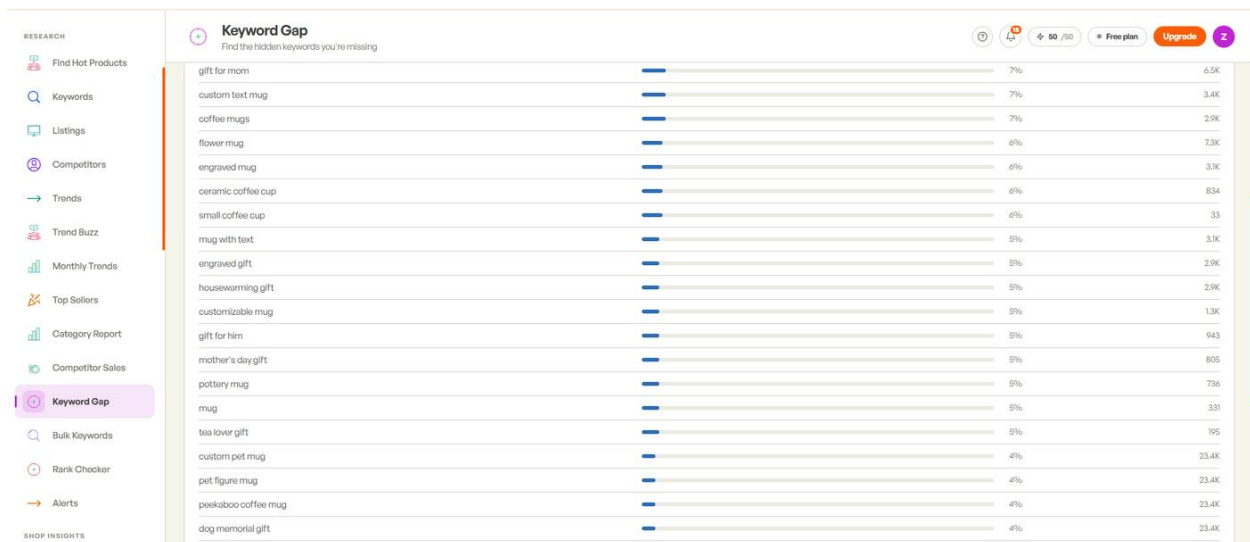

WHAT YOU GET

A precise shopping list of tags to add to your own listing, based on real winning data — not guesswork.

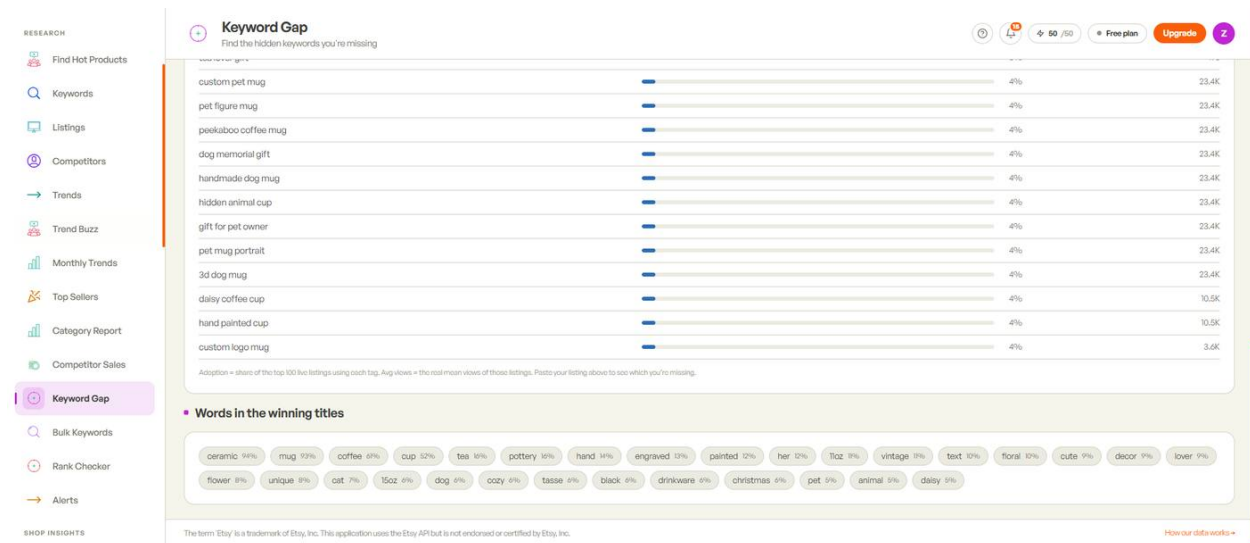

Tip: A tag used by only 7% of listings but with high average views is often a bigger opportunity than the tag everyone already uses.

14. Bulk Keywords

WHAT IT DOES

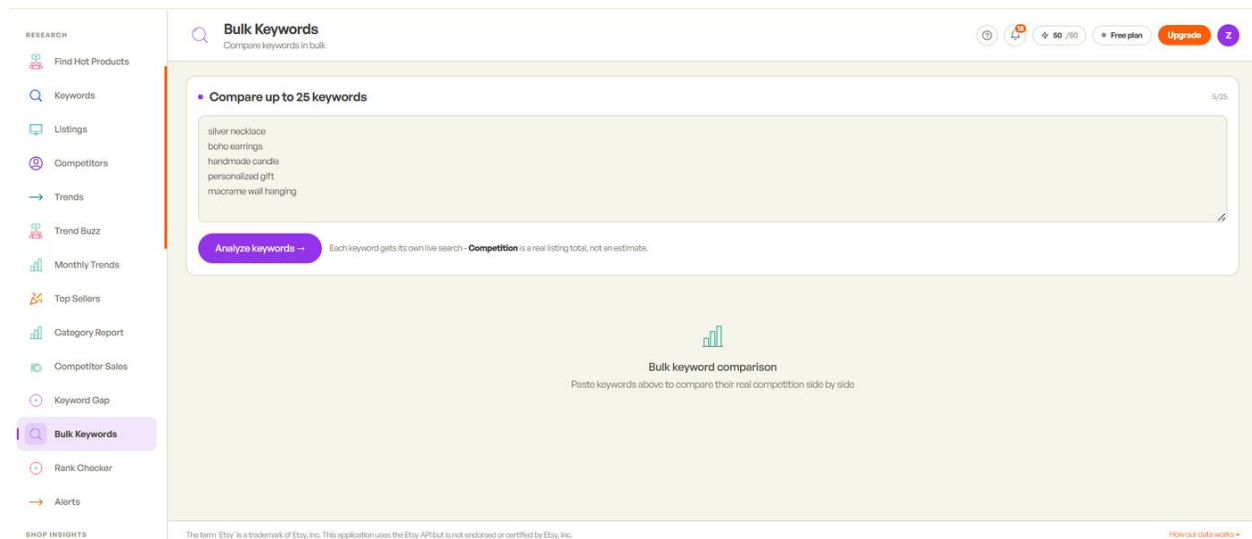

This tool lets you check many keywords at once instead of one at a time.

HOW TO USE IT

- 1 Type or paste up to 25 keywords into the box, one per line.
- 2 Click "Analyze keywords".
- 3 Compare the results table — each keyword gets its own real competition number.
- 4 Use this to quickly narrow a long list down to your best few candidates.

WHAT YOU GET

A fast side-by-side comparison so you don't have to open the Keywords tool 25 separate times.

15. Rank Checker

WHAT IT DOES

This tool tells you exactly where YOUR shop shows up in Etsy search results.

HOW TO USE IT

- 1 Type your shop name or ID into the "Your shop" box.
- 2 Type up to 10 keywords into the keywords box, one per line.
- 3 Click "Check rankings".
- 4 Review the results to see your position for each keyword — and check back over time to see if you're moving up.

WHAT YOU GET

Real proof of whether your SEO work is actually helping — not a guess.

The screenshot shows the Rank Checker tool interface. On the left is a sidebar with a 'RESEARCH' section containing various tools like 'Find Hot Products', 'Keywords', 'Listings', 'Competitors', 'Trends', 'Trend Buzz', 'Monthly Trends', 'Top Sellers', 'Category Report', 'Competitor Sales', 'Keyword Gap', 'Bulk Keywords', 'Rank Checker' (highlighted), and 'Alerts'. Below this is a 'SHOP INSIGHTS' section. The main area is titled 'Rank Checker' with the subtitle 'Find where your shop ranks'. It features a form with two input fields: 'YOUR SHOP (NAME OR ID)' containing 'e.g. CrochetArtPK' and 'KEYWORDS (10 MAX, ONE PER LINE)' containing 'crochet cardigan' and 'baby crochet pattern'. A red 'Check rankings --' button is below the first field. Below the form is a large empty box with a plus icon and the text 'Check your search rankings' and 'Enter your shop and keywords to see where your listings appear in Etsy search'. At the top right of the main area are icons for a globe, a notification bell, a currency symbol, a refresh icon, and a 'Free plan' button with an 'Upgrade' button next to it. At the bottom left, there is a small disclaimer: 'The term "Etsy" is a trademark of Etsy, Inc. This application uses the Etsy API but is not endorsed or certified by Etsy, Inc.' At the bottom right, there is a link: 'How our data works'.

16. Alerts

WHAT IT DOES

This tool watches a keyword for you and tells you when something important changes.

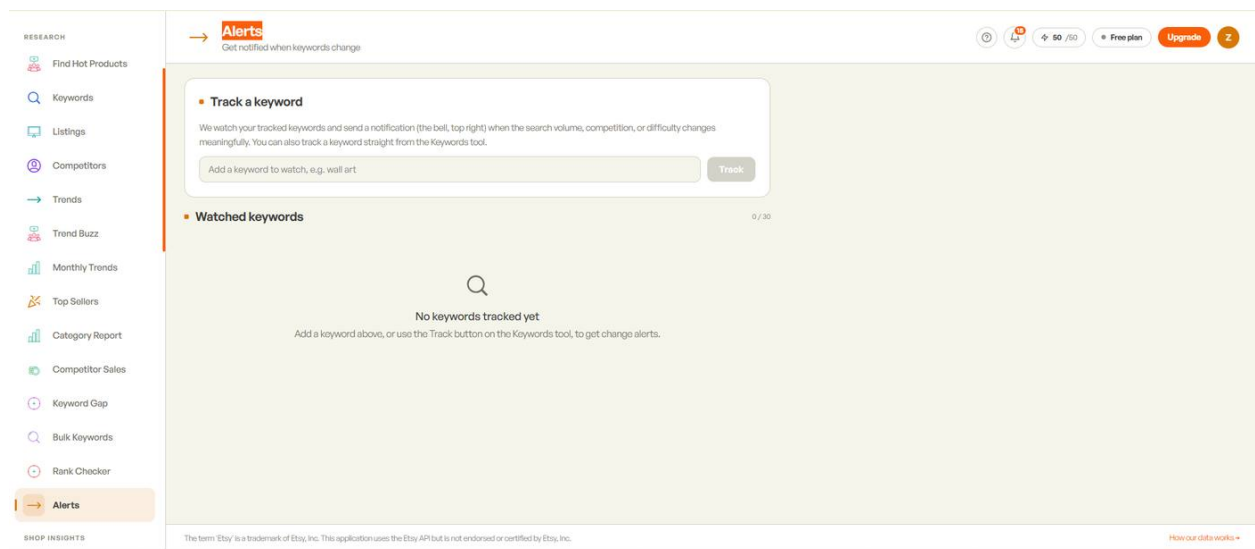

HOW TO USE IT

- 1 Type a keyword into the "Add a keyword to watch" box.
- 2 Click "Track".
- 3 The tool now checks that keyword automatically in the background.
- 4 Watch the bell icon (top right) — a notification appears there if the keyword's search volume, competition, or difficulty changes in a meaningful way.

WHAT YOU GET

Peace of mind — you don't have to remember to keep re-checking your important keywords by hand.

Tip: You can track up to 30 keywords at once. Use this for your main, most important keywords.

- 2 Once connected, open Sales Map from the sidebar.
- 3 Look at the map to see which cities and countries your orders come from.

WHAT YOU GET

A visual picture of your real customer base, straight from your own Etsy order data.

HOW TO USE IT

20. Tag Optimizer

WHAT IT DOES

This tool finds the best-performing tags for a keyword — not just the most popular ones.

HOW TO USE IT

- 1 Type your keyword into the search box (example: "boho earrings") and click Analyze Tags.
- 2 Look at the "Recommended tags" row at the top — click any tag to copy it instantly.
- 3 Scroll the full table and check the "Score" column — higher score means better real performance.
- 4 Notice that tags used by only 1 listing can still score very high if that listing performs well.

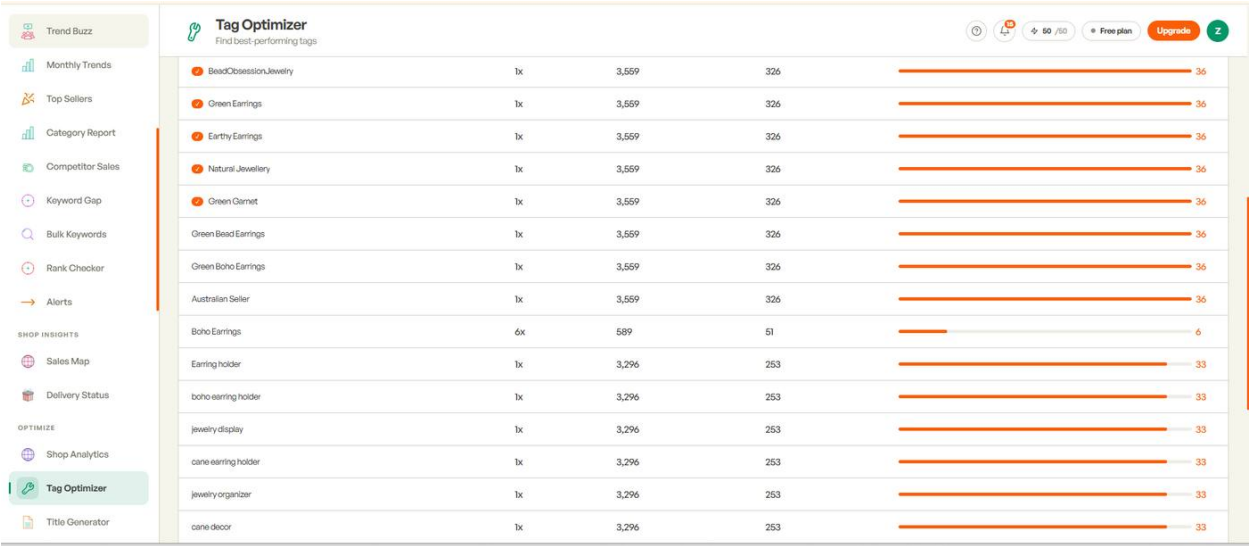

WHAT YOU GET

A smarter tag list than just picking the most obvious, most-used words — Etsy allows 13 tags, so use your best 13.

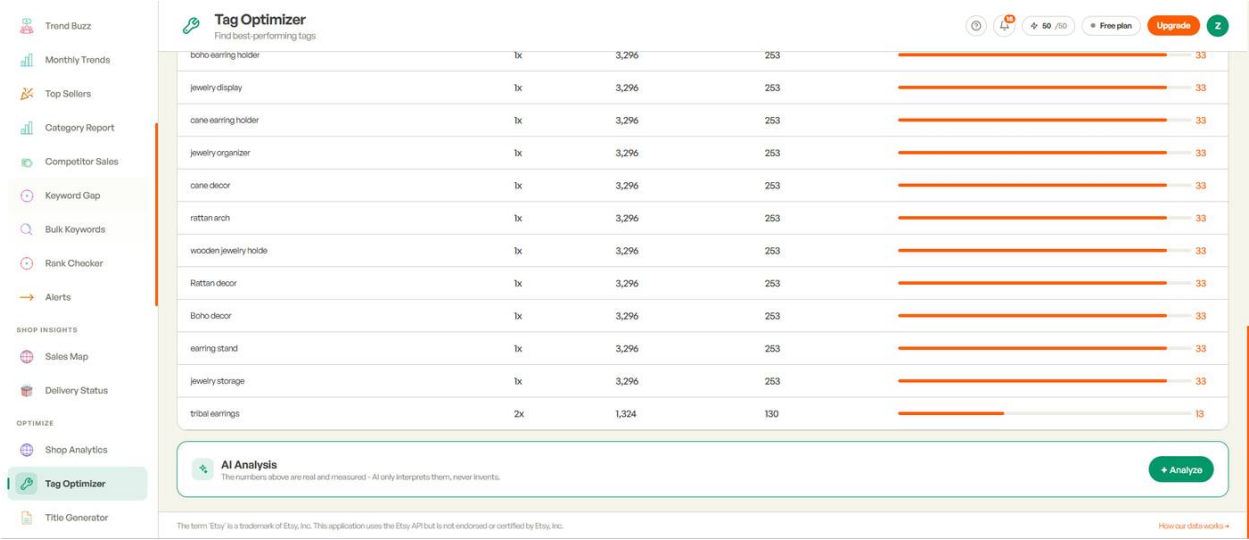

Tip: The most commonly used tag is often NOT the best one, because everyone already uses it. Rare, specific tags frequently score higher.

TAG	USED	AVG VIEWS	AVG FAVS	SCORE
boho jewelry	7x	831	76	8
boho earrings	25x	218	19	2
Bohemian Earrings	3x	1,276	120	13

Below this are four input fields: 'FOCUS KEYWORD' (with the example 'e.g. wedding invitation template'), 'PRODUCT NAME' (with 'optional'), 'PRODUCT TYPE' (with a dropdown menu showing 'Auto-detect'), and 'TARGET AUDIENCE' (with 'optional'). Below the input fields, a message states 'No description yet' and 'Fill in your keyword and hit Generate - you'll get 3 versions to choose from.' At the very bottom, a small disclaimer reads: 'The term "Etsy" is a trademark of Etsy, Inc. 30. Fee Calculator

WHAT IT DOES

This tool tells you exactly how much Etsy takes from a sale, and what you actually keep.

HOW TO USE IT

- 1 Enter your item price and shipping charge.
- 2 Enter what the item costs you to make or buy.
- 3 Enter the quantity and select your payment-processing region.
- 4 Click Apply (or it updates automatically) and review the fee breakdown.
- 5 Check the "Break-even item price" so you know the lowest price you can charge and still profit.

WHAT YOU GET

A clear, honest answer to "how much do I actually keep after Etsy's fees?"

The screenshot shows a web application titled "Fee Calculator" with the subtitle "Estimate Etsy fees & profit". The interface is divided into several sections:

- Order details:** Includes input fields for "Item price" (\$ 25.00), "Shipping charged" (\$ 5.00), "Item cost (yours)" (\$ 8.00), and "Quantity" (1). There is a dropdown for "Payment processing region" set to "United States - 3% + \$0.25". A toggle for "Offsite Ads fee (5%)" is present.
- Fee breakdown:** A table showing the calculation of fees:

	Item
Revenue (item + shipping)	\$30.00
Listing fee	-\$0.20
Transaction fee (6.5%)	-\$1.95
Payment processing (3% + \$0.25)	-\$1.15
Total Etsy fees	-\$3.30
Your item cost	-\$8.00
- Summary:** Displays "YOU KEEP \$18.70" and "PROFIT MARGIN 62.3%". It also shows a "BREAK-EVEN ITEM PRICE" of \$4.34.
- AI Analysis:** A section at the bottom with a green "Analyze" button.

The bottom of the interface includes a footer with a disclaimer: "The term 'Etsy' is a trademark of Etsy, Inc. This application uses the Etsy API but is not endorsed or certified by Etsy, Inc." and a link "How our data works".

31. Ads ROI

WHAT IT DOES

This tool tells you whether your Etsy Ads are actually making you money.

HOW TO USE IT

- 1 Enter your ad spend, impressions, clicks, orders, and average order value.
- 2 Review the results: Return on ad spend (ROAS), ROI, CTR, CPC, and conversion rate.
- 3 Check if your ROAS is above 1.00x — that means your ads are paying for themselves.

WHAT YOU GET

A clear go/no-go signal on whether to keep spending on ads for that product.

Tip: Pair this with the Fee Calculator — your TRUE break-even ROAS needs to cover Etsy's fees too, not just the ad cost.

The screenshot shows the 'Ads ROI' calculator interface. On the left is a sidebar with navigation links: 'Etsy Listing Pro', 'AI Listing Helper', 'Listing Audit', 'Competitor Tags', 'Compare Listings', 'Spell Checker', 'TOOLS' (containing 'Fee Calculator'), 'Ads ROI' (highlighted), 'Category Finder', 'Seasonal Calendar', 'Keyword Lists', 'EARN' (containing 'Refer & Earn'), and a 'zafer all' user profile at the bottom. The main content area is titled 'Ads ROI' and 'Etsy Ads ROI & CPC calculator'. It features a 'Your Etsy Ads numbers' section with input fields for 'AD SPEND' (\$ 50), 'IMPRESSIONS' (8000), 'CLICKS' (240), 'ORDERS' (12), and 'AVG ORDER VALUE' (\$ 28). To the right, a summary box displays 'RETURN ON AD SPEND' as 6.72x and 'ROI' as +572%. Below these are six boxes showing 'REVENUE' (\$336.00), 'CTR' (3.00%), 'CPC' (\$0.21), 'CONV. RATE' (5.0%), 'COST / ORDER' (\$4.17), and 'BREAK-EVEN ROAS' (1.00x). A note states: 'A ROAS above 1.0x means ads earn back more than they cost (before product/fee costs). Pair with the Fee Calculator to find your true profit positive ROAS target.' At the bottom of the main area is an 'AI Analysis' section with a disclaimer and an 'Analyze' button. The footer includes a disclaimer about the Etsy trademark and a 'How our data works' link.

32. Category Finder

WHAT IT DOES

This tool helps you pick the exact right category for your listing out of Etsy's full category list.

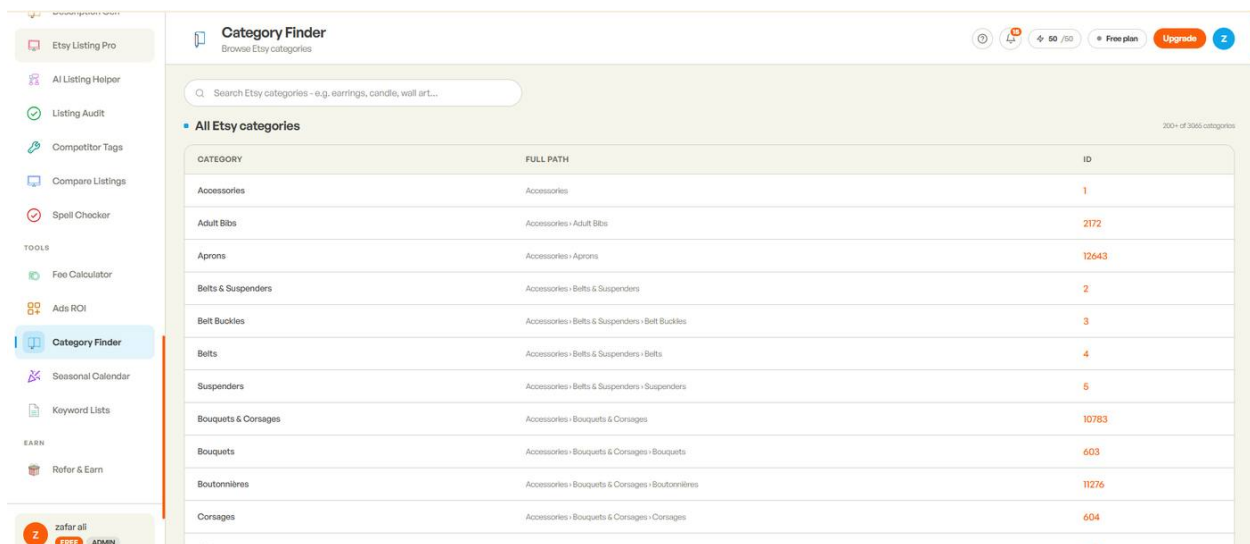

HOW TO USE IT

- 1 Type a word describing your product (example: "earrings", "candle", "wall art") into the search box.
- 2 Browse the matching categories in the results.
- 3 Always pick the DEEPEST, most specific category shown — not a broad top-level one.
- 4 Copy the category path into your Etsy listing.

WHAT YOU GET

The most precise category match for your product, which helps Etsy's own search understand what you're selling.

Tip: "Cuff Links" (a specific, deep category) always beats just "Accessories" (a broad, top-level one) for placement.

33. Seasonal Calendar

WHAT IT DOES

This tool shows you every upcoming shopping event, with a deadline for updating your listings.

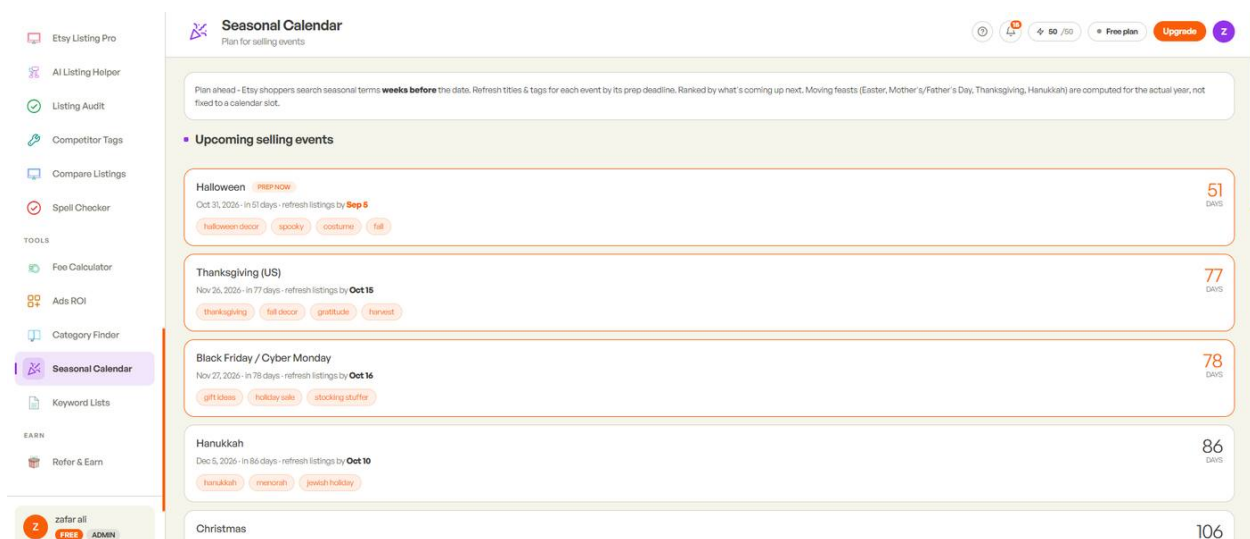

HOW TO USE IT

- 1 Open Seasonal Calendar from the sidebar — no search needed.
- 2 Scroll through the list of upcoming events (Halloween, Christmas, Valentine's Day, etc.).
- 3 Check the "refresh listings by" date for each event that's relevant to your shop.
- 4 Update your titles and tags with the suggested seasonal keywords before that date.

WHAT YOU GET

A ready-made calendar so you never miss preparing for a big shopping season.

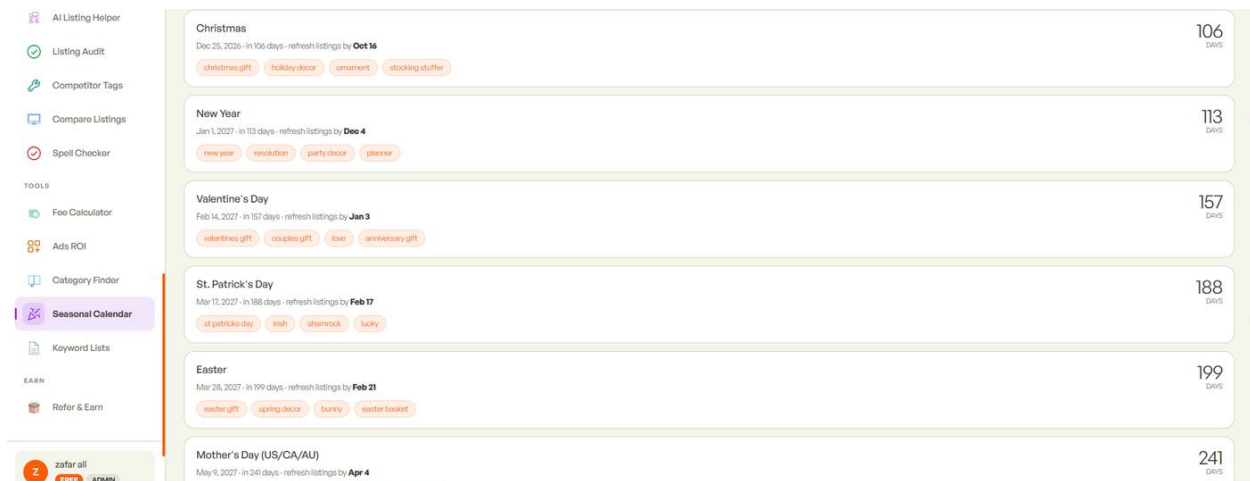

Tip: Refresh your listings 4-6 weeks before each event — that's enough time to get indexed and reviewed before demand peaks.

This screenshot shows the 'Seasonal Calendar' tool interface. The left sidebar contains navigation links for 'Etsy Listing Pro', 'AI Listing Helper', 'Listing Audit', 'Competitor Tags', 'Compare Listings', 'Spell Checker', and a 'TOOLS' section with 'Fee Calculator', 'Ads ROI', and 'Category Finder'. Below these are 'Keyword Lists' and 'EARN' options like 'Refer & Earn'. The main content area is titled 'Seasonal Calendar' with a subtitle 'Plan for selling events'. It includes a note about planning ahead and a list of 'Upcoming selling events'. The events listed are Halloween (Oct 31, 2026), Thanksgiving (US) (Nov 26, 2026), Black Friday / Cyber Monday (Nov 27, 2026), Hanukkah (Dec 6, 2026), and Christmas (Dec 25, 2026). Each event entry shows the date, a 'refresh listings by' deadline, and a set of suggested keywords. The number of days remaining for each event is displayed on the right side of each entry.

Event	Refresh Listings By	Days Remaining
Halloween	Sep 5	51
Thanksgiving (US)	Oct 18	77
Black Friday / Cyber Monday	Oct 16	78
Hanukkah	Oct 10	86
Christmas	Oct 16	106

Each event entry shows the date, a 'refresh listings by' deadline, and a set of suggested keywords. The number of days remaining for each event is displayed on the right side of each entry.
