

# Rankkw Features Guide

A simple guide to every tool inside Rankkw and what it does.

Rankkw has 33 tools, grouped into 5 sections. Each one is explained below in plain English.

## Home

### Overview

This is your main dashboard. It brings together your key numbers and shortcuts in one place. Think of it as the front page of your Etsy SEO work, so you can see the big picture and jump into any tool fast.

### My Shop

This connects to your own Etsy shop and shows your real sales and insights. You link your shop once, and then it pulls in your live data. It helps you understand how your own listings are doing without leaving the app.

## Research

### Find Hot Products

This finds products that are trending right now based on real buyer engagement like favorites. It gives each product a hot score so you can spot what is getting attention. Use it to find fresh ideas before a niche gets crowded.

### Keywords

This researches search words that buyers type on Etsy. It shows how many people search a word and how likely they are to click. Use it to pick the best words for your titles and tags so more people find your items.

### Listings

This lets you browse real live listings on Etsy for any keyword. You can see what is actually selling and how sellers write their titles and tags. It is a quick way to study your market with real examples.

### Competitors

This analyzes the top sellers for a keyword or niche. It shows who is winning and what they are doing well. Use it to learn from the best shops and find ways to stand out from them.

### Trends

This tracks how search interest for a keyword changes over time. You can see if a word is going up or down in popularity. It helps you decide if a niche is growing or fading before you invest time in it.

### **Trend Buzz**

This shows new keywords that are starting to heat up on Etsy. These are words gaining attention but not yet crowded. Getting in early on a rising keyword can help you rank before the competition grows.

### **Monthly Trends**

This shows demand month by month across the year. You can see which months are busy for a product and which are slow. Use it to plan seasonal items and stock up before the rush.

### **Top Sellers**

This ranks the leading shops in any niche by their real lifetime sales from the official Etsy data. You can see the biggest players in a market at a glance and study what makes them successful.

### **Category Report**

This gives a market snapshot for a whole niche or category. It sums up things like price ranges, competition, and demand. Use it to quickly judge if a niche is worth entering.

### **Competitor Sales**

This estimates real sales and daily sales speed for competitor listings. It shows how fast items are moving. Use it to see which products have steady demand and which are just sitting there.

### **Keyword Gap**

This finds the useful keywords that your listings are missing. It compares you against strong competitors. Filling these gaps helps buyers find your items through searches you were not showing up for before.

### **Bulk Keywords**

This lets you check many keywords at once instead of one at a time. It shows their numbers side by side. This saves a lot of time when you are building a big list of words to target.

### **Rank Checker**

This shows where your shop or listing ranks in Etsy search for a keyword. You can see your position in the results. Use it to track your progress and prove that your SEO work is paying off.

## Shop Insights

### Sales Map

This shows where your buyers are located on a map of the world. It reads your real order data through your connected shop. Knowing where your customers live helps you plan shipping, ads, and product ideas.

### Delivery Status

This lists your orders that are still waiting to be shipped. It pulls your real orders from Etsy. It gives you a simple to do list so no order gets forgotten and buyers stay happy.

## Optimize

### Shop Analytics

This lets you dig into any Etsy shop, not just your own. It breaks down their listings, tags, and performance. Use it to study competitors in depth or to review your own shop from the outside.

### Tag Optimizer

This helps you find the best performing tags for your listings. It looks at real data to show which tags actually work. Better tags mean your items show up in more of the right searches.

### Title Generator

This uses AI to write Etsy titles for you, built from real search data. You give it your product and it suggests strong titles. It saves time and helps your titles include the words buyers are searching for.

### Tag Generator

This uses AI to create a full set of Etsy tags from real data. It fills all thirteen tag slots with useful keywords. This takes the guesswork out of tags so your listing has the best chance to be found.

### Description Gen

This uses AI to write a clear product description grounded in real Etsy data. You give it the basics and it writes the rest. A good description helps convince buyers and can include keywords that help you rank.

### Etsy Listing Pro

This builds a whole listing in one click, including the title, tags, description, price, and AI made product images. It is the all in one tool for creating a complete, ready to use listing very quickly.

### AI Listing Helper

This is a lighter AI helper that gives you a title, tags, and description together. It is quick and simple to use. Use it when you want fast AI suggestions for a listing without extra steps.

### **Listing Audit**

This gives your listing an SEO score and points out what to fix. It checks things like your title, tags, and keywords. Use it as a checklist to make each listing stronger before or after you publish it.

### **Competitor Tags**

This pulls out the tags that a competitor shop is using. It shows you their keyword choices in plain view. You can learn from what is working for them and use the same ideas in your own listings.

### **Compare Listings**

This puts two listings side by side so you can compare them directly. You can see the differences in titles, tags, and more. It is helpful for spotting why one listing may be doing better than another.

### **Spell Checker**

This scans your tags for spelling mistakes and typos. A misspelled tag is wasted because buyers will not search for it. This quick check makes sure every tag is spelled right and doing its job.

## **Tools**

### **Fee Calculator**

This estimates the Etsy fees you will pay and the profit you will keep. You enter your price and costs and it does the math. Use it to set prices that actually make money after all the fees.

### **Ads ROI**

This is a calculator for your Etsy Ads. It works out your return on ad spend and your cost per click. Use it to see if your ads are worth the money or if you need to change your budget.

### **Category Finder**

This helps you browse and find the right Etsy category for your product. Categories help buyers narrow down searches. Picking the correct category helps the right shoppers find your item.

### **Seasonal Calendar**

This is a calendar of selling events and seasons through the year. It reminds you when to prepare for holidays and busy times. Use it to plan listings and promotions ahead of each big shopping moment.

### **Keyword Lists**

This lets you save and organize the keywords you find into lists. You can keep your best words in one tidy place. It keeps your research organized so you can reuse your keywords across many listings.
